ENERGY STAR certified heat pump water heaters (HPWHs) promise huge energy savings. Learn about the benefits of upgrading to a super-efficient water heater as part of an ENERGY STAR Home Upgrade and see if a heat pump water heater is right for your home. *

WHY PURCHASE AN ENERGY STAR-CERTIFIED HEAT PUMP WATER HEATER?

Big savings. ENERGY STAR certified HPWHs can save a household of 4 approximately \$550 per year on its electric bills compared to a standard electric water heater and more than \$5,610 over the HPWH's lifetime.

A smart investment. While a certified HPWH costs more upfront, the savings will pay back the difference in about three years for a household of 4. Replace your aging electric water heater before it fails and start enjoying the savings right away.*
